The main span of the bridge over the Ohlo river at this point, 400 feet in eagth, the longest sincle span in the United States, was swung on its beerings Saturday. The temporary sup r-structure will now be removed, and in five days the channel will be passable for boats. The clearance under the bridge above low water line is 96% feet, and above high water line 45% feet. Boats expecting to pass under the bridge will have to regulate the hight of their chimneys accordingly. The whole bridge will be completed reads for the passage of trains on or before

An Antedilavian Animal Sixteen Peet

Horace Jones, a farmer of Milton, Durage county, Ill., in digning a well recently, exhumed some of the remains of a chormous mastedon. Among them, says the thicago Tribune, were the bones of the fore-lex, which, when joined together at the core-leg, which, when joined together at the evident junction, measured ten feet in length. The shoulder bone or blade, a solid pleee of bone, measured ten incless by twelve in its superficial dimensions. Four ribs were found, all of which were more or less decayed at the cuds. One measured four feet, and wnother four feet, three incless in length. A number four feet, three inches in length. A number of hage bones, believed to be sections of the spine near its connection with the head, contained cavities large enough to admit a man's hand and arm. Smaller bones in greater variety were preked up—some of them supposed to be the bones of the fee. These detached joints were the size of a man's ast.

The news of this wonderful discovery had stread in every direction, and vested by have hand and arm. Smaller bones in greater variety were picked up—some of them supposed to be the bones of the fee. These detached joints were the size of a man's ast.

The news of this wooderful discovery had spread in every direction, and yesterd y large numbers of people from the urrounding country visited the locality. The gleantle bones were eagerly inspected, and many were the queries as to what manuer of beast they belonged to in ages past the memory or knowledge of the human race. Our informant, Mr. J. B. Mason, a well-known lumber dealer of Chicago, formerly of Wheaton, states that men have now gone sy tematically to work excavating for additional remains. They had yesterday dag a pit twenty feet deep and ten feet in dismeter, and were continually meeting with fresh evidence that at this spot some antedituvian monaser found a grave. The savants are on the qui eiss, and important revelations are anticipated.

ANOTHER PHASE OF THE DRAWBACKS RAS CALITY

in the Custom-house, is now under investiga-tion by the District Attorney. These new frauds differ from those previously discovered. In fact, the goods on which drawback is claimed were ostensibly shipped, although the packages were in reality bogus; barrels of water, for instance, being substituted for bar-rels of oil. The culprits seem to be a differ-ent set of oftenders from those concerned in previous frauds, and, so far a is known, no officials are implicated. Their extent is not fully ascertained. No arrests have yet been made.

7.ABORERS SWINDLED.

A set of sharpers calling themselves Totten & Co., having an office in William street, succeeded in swindling about 750 laborers out of five dollars each, under pretense of furnishing them passage to New Orleans, at which place they were to set to work at \$3 73 per day. On Saturday, the day of sailing, the office was closed. Totten & Co. failed to put

in an appearance. It is stated that the French Government, which refused to negotiate a new postal treaty with Senator Ramsey on a more liberal basis, has usked that the present treaty, which expires on the 1st of February, 1870, be renewed for one year. This request our Governnent has positively declined

Quinine, acting upon the nervons system, produces, according to our best anthorities, "a fee ling of tightness or QUEENSTOWN, Nov. 27.—The steamships Chivor distension of the head, ringing, buzzing or Boston and Newcest, from New York, have arroaring in the ears, partial deafness," &c., and, when the dose is increased, "complete deafness, diminution or loss of sight, dilated or immovable pupil, coma, and great prostra-

tloh." Wintersmith's Tonie Sirup leaves the system in a perfectly healthy condition, with

no bad effects in any way to be worn off. Another great virine claimed for this mediine, and wherein consists its superiority over other medicines, is that the enre is permanent. It rarely requires more than a

day or two to effectually break the chill, and, nce broken, they will not return. Hundreds of letters are daily received textifying to the efficacy and we _ lerful virtues of his remedy. It is very popular wherever old, taking the place of any chill remedy
